MUSEUM OF NATURE & SCIENCE

FLYING MONSTERS

IMAX Theater
Starting March 1

Years ago, dinosaurs were beginning their domination of the Earth. But Pterosaurs were soon were taking control of the skies.

Join Sir David Attenborough, the world's leading naturalist as he sets out to uncover the truth about the pterosaurs, whose wingspans of more than 40 feet were equal to that of a modern jet plane.

How and why did pterosaurs fly? How did lizards the size of giraffes defy gravity and soar through prehistoric skies? The answers to these questions also lead to new theories of flight itself.
